Mission statement: To oppose and expose all aspects of foreign control of Aotearoa.

Aims/ main objectives: CAFCA believes that the independence of most countries is being eroded away. This erosion has taken place because most of the world's economy is now owned and controlled by a relatively small number of huge transnational corporations (TNCs).

CAFCA promotes the concept of an independent Aotearoa based on policies of economic, military and political self-reliance, using Aotearoa's resources for the benefit of the people of Aotearoa, and refusing involvement in the self-serving military and economic treaties of big foreign countries. We oppose foreign control, irrespective of which country it involves. We oppose the exploitation of Aotearoa's people and resources by foreign companies, and any foreign military or intelligence activities in Aotearoa. CAFCA does not support the replacement of foreign exploiters with local ones. New Zealand big business interests are collaborating with foreign companies in the exploitation of its own country - its only loyalty is to improve profits. CAFCA IS NOT RACIST. We do not oppose the people of foreign countries, only TNC's exploiting the people of New Zealand.

Caritas carries on this role as the agency set up by the Bishop's Conference to respond to poverty and injustice in the world. which means that we work to make a real difference in the lives of people living with poverty or injustice. We support locally run community development projects among poor communities in Africa, Asia, Latin America and the Pacific. These projects address the causes of poverty and lift the standard of living for people who are often desperately poor. We fund emergency relief work following major disasters. Mission statement: Jubilee Aotearoa is an organisation of agencies, groups, and individuals working for an end to the injustice of third world debt and the structural adjustment programmes of the International Financial Institutions (IFIs) that exclude, marginalise, and impoverish people.

Aims/ main objectives: Jubilee Aotearoa calls on the New Zealand government to: Support an immediate moratorium on all debt repayments for the 42 Heavily Indebted Poor Countries (HIPC) and the ring-fencing of the saved resources for use in social priority areas; acknowledge that the current HIPC is failing to achieve the initiative's own criteria for debt sustainability and falls far short of achieving levels of sustainability that would be sufficient to allow effective poverty reduction, and that ending the burden of debt in the HIPC countries and channelling those resources into key social priority areas is absolutely essential if these countries are to have any hope of achieving the Millennium Development Goals for their citizens; pursue a new and wholly independent review of the HIPC and the Poverty Reduction Strategy Paper (PRSP) process, particularly during New Zealand's upcoming Executive Director roles on the Bank and the Fund; develop sharper policy and new strategies which seek deeper, broader and faster debt cancellation with the additional resources required to be found in the existing reserves of the IFIs; work with other governments toward the establishment of a fair, independent and transparent debt arbitration process which will ensure that the rights of the citizens of indebted countries are placed at the centre of debt negotiations; seek an end to structural adjustment programmes imposed by the IFIs through debt relief conditionality and which continue to underlie Poverty Reduction Strategy Papers; undertake a systematic analysis of the impact of debt repayment and IFI policies in the Pacific, including in the Solomon Islands and Papua New Guinea, taking full account of the peoples' experiences with PRSPs; and ensure that NZAID tackles the issue of unjust debt in its policies and programmes and provides education for all its staff on the relationship between debt, structural adjustment, and poverty.
